

World Water Week Celebration - 2018

Theme: Nature for Water

DP World Nhava Sheva celebrated “World Water Week” between 20th to 26th March 2018 and various initiatives were undertaken in terminal and beyond the gate involving employees, contractors, people at nearby village & students from local school.

The below initiatives were undertaken on this occasion –

1. Awareness campaigns in the terminal regarding water saving

Various awareness campaigns conducted at the terminal involving employees, contractors to highlight the importance of water in life, tips for water saving, problems with shortage of water, ways of recycling, how energy is linked with water, importance of water for life etc. Theme for this year's water day is **why waste water**. Duties and roles as of a responsible citizen to save the resources were also discussed during this occasion.

The awareness to employees and management staff was conducted through water saving messages throughout the week, banner display, video clips, tool box talks and notice board displays etc. Representatives shared knowledge and discussed good practices for saving water resources.

HSE representative giving Gift to ITV drivers who won spot quiz

2. Visit to nearby local village – Awareness campaign with Home Makers

As a part of World water week celebration, an awareness campaign was arranged at Mulekhand – Telipada village Uran. More than 30 home makers from village attended the water day celebration that had been arranged. 'Why waste water' was the theme for this campaign. HSE representative shared knowledge on water conservation during the session. The participants were keen to share the initiatives they have been taking at their households and living places. Most of them were well aware about the current water crisis scenario and were eagerly questioning on ideas for water saving techniques. Short quiz was conducted and prizes were given to winners.

All participants were given complimentary gifts at the end of session as a token of their active participation. Saplings were distributed to all the participants to make them aware about importance

of planting trees and How trees can help to conserve water.

Distributing saplings to participants

HSE representative sharing knowledge on water conservation

3. Visit to nearby School (Sawarkhar Primary school , Uran – Involving students)

A program on water saving was arranged at Sawarkhar, Uran. The support and involvement was excellent from the Principal, Village president and other Teachers. Campaign was attended by 35 students along with 02 teaching staff. Students belonged to Primary Grade. Further Speech Competition on water conservation was conducted with School Students and prizes were given for the Effective Speech. The efforts were appreciated by the School Management and they assured continuous support for such initiatives. Below points were a part of the awareness campaign –

- Water & Our population,
- water consumption- Limited resources, How to prevent wastage of water,
- Reduce – Reuse & Recycle concept, water saving tips.
