End-to-End Multimodal Logistics Services

DISCOVER OUR SMART SUPPLY CHAIN SOLUTIONS
Reliable and Predictable | Technology enabled | Value added services

ABOUT US

DP World is a leading enabler of global trade and an integral part of the supply chain with a global portfolio of 78 operating marine and inland terminals supported by over 50 related businesses in over 40 countries across six continents with a significant presence in both high-growth and mature markets.

In India, we have been operating container terminals since 1997 and was instrumental in building the **first Public-Private Partnership (PPP) project** for the Government of India. Today, with an **investment of over USD 1.2 Billion**, we operate six terminals at major port locations with over 6 million TEU of gross capacity.

The six container terminals in India are registered under **Hindustan Ports Private Limited (HPPL)**, a wholly owned subsidiary of DP World. HPPL's current logistics offering also includes Container Rail Road Services (CRRS) which operates container trains that connect ports to the hinterland.

In 2018, through a joint venture with the country's National Investment Infrastructure Fund (NIIF), we created Hindustan Infralog Pvt. Ltd. (HIPL) to **invest up to USD 3 Billion in the logistics sector in India**. Under this partnership, we acquired 90% of **Continental Warehousing Corporation (Nhava Sheva) Ltd (CWCNSL)**, a leading integrated multimodal logistics provider. In 2018, DP World also won a bid to develop, operate and manage the **Free Trade Ware-housing Zone** at Jawaharlal Nehru Port, Nhava Sheva, which will position India as a global trading hub.

With our robust portfolio of terminal assets, PFTs, CFSs, multimodal transport solutions, Cold chain facilities and value added services, we cater to the complete spectrum of logistics requirements of customers across all levels in the supply chain. We leverage the massive opportunities offered by digital technology to enable cargo owners to move their goods around the world in ways that are smarter, faster, safer and more cost-efficient.

We have also created value through our global sustainability program '**Our World, Our Future**'. DP World Mundra is one such example, investing USD 1.3 Million on projects, **supporting 1,00,000 people in the local community**.

OUR KEY ATTRIBUTES

CULTURE & PEOPLE

Our people are our greatest asset. We encourage an inclusive culture, which recognizes and values diversity. We are always looking for ways to improve

PRODUCTS & SERVICES

Our multimodal logistics solutions and value-added services allow us to cater to the complete spectrum of logistics requirements. We leverage technology as an enabler towards more efficient and cost-effective trade solutions

INNOVATION

We are committed to innovation that can turn today's challenges to tomorrow's opportunities. Among our achievements, are smart digital technologies like Hyperloop, to add greater efficiency to the supply chain

SAFETY & COMPLIANCE

We are committed to ensuring our business meets the highest standards, procedures and processes. We have been certified as the first international port operator to partner in the C-TPAT initiative by US Customs & Border Patrol. Our Indian ports are certified to **ISO: 9001-2015, ISO: 14001-2015, ISO: 45001:2007, ISO 27001:2013, ISO 28000:2007 and ISPS*** standards

Ports & Terminals

- Portfolio of six terminals at key gateway ports
- State-of-the-art, infrastructure and equipments to service the next-generation large size vessels
- Deliver the best in class Gross Crane Productivity of 30 moves per crane hour
- Total quay length of 3,502 metres with a total gross capacity of 6.5 Million TEUs
- Total reefer container storage points of 2,616, handles 45% of the reefer EXIM trade & facilitate the movement of commodities such as Sea Food, Pharmaceuticals, Fruits, Buffalo meat amongst others
- Offer seamless connections to over 60 ICD locations across India
- Customize offerings for Direct Port Delivery
- Pioneer in introduction of automation in the Indian port sector such as gate automation, remote controlled Quay Cranes, Smart Gates with RFID technology, Reefer Monitoring System and Smart Control Room (Video Wall)

Rail Services

- Connectivity from north India to key gateway ports: Mundra, Pipavav & Nhava Sheva
