

Customer Advisory

To Our Esteemed Customers,
Greeting from DP World Nhava Sheva

It has been observed that most of the containers arriving from CFS at DP World Nhava Sheva do not have custom endorsement done, factoring this the survey of the containers are hampered at our survey point and it becomes difficult to manage the queue while the container is waiting for Gate Preventive Officer approval or endorsement which cascades to hamper our gate productivity as well, if any container found without proper endorsement done on the document will be turned back from the Y junction.

As communicated in an earlier communiqué we will now channelize all OOG, Empties, and Reefers through the parking plaza, so that order is maintained and the approaches remain free, we would appreciate that you inform all your vendors to take the note of the same and comply, if any TT found without Parking Plaza ticket will be turned back from the Y Junction.

The aforementioned process has already commenced.

Best Regards,

Ajay Singh
Chief Executive Officer
DP World Nhava Sheva
