

Customer Advisory

To Our Esteemed Customers,

To maintain the integrity of an Export Empty container and to ensure that there is no violation of customs regulations, we intend to seal all empty containers after being pre-checked and photographed. This shall ensure that the container is loaded in the same condition.

The onus to affix the seal at the pre-gate lies with our terminal. Since this will be a value added task which entails further expense the same would lead to a charge of INR 200/- per container.

This initiative is being carried out to eliminate physical check of emptiness at the gate, thus, ensuring the safety of the driver and uninterrupted flow of traffic through the gates.

The aforementioned process shall commence from 15th April, 2016.

Best Regards,

Ajay Singh
