Customer Advisory Circular

Movement of All Reefer Containers through Parking Plaza

In line with our objective of taking our operational excellence to the next level and facilitating swift EXIM processes at DP World Nhava Sheva, we intend to go a step further in the sphere of Reefer movement to ensure seamless connectivity up to our Gates and subsequently to the vessels.

Basis the above, you are henceforth required to route all your Reefer cargo through the Parking Plaza at Sonari Village where it will be issued a ticket which in turn shall ensure its connectivity to the vessel with non-stop entry to the terminal (Green-Channel Entry).

We are confident, this will guarantee that there is no wastage of time and resources nor will the trade confront unwarranted delays on the approach roads.

Assuring you of our best-in-class services at all times and we look forward to your sincere support.

Thanking You.

Ajay Singh
Chief Executive Officer
DP World Nhava Sheva.
